the spirit of the winebar

EUROCAVE PROFESSIONAL CAPTURES

Place

Two separate temperature zones that can be set from 6 - 18°C to bring your wine to an ideal serving temperature.

A modern design, that emphasizes the natural elegance of glass, and over 50 shades of lighting to choose from to enhance your most prestigious bottles.

#multi-colour LED lighting

#bottles effectively displayed

Choice

8 bottles ready to pour plus space for 6 extra bottles. To offer customers a wide selection of wines by the glass.

Temperatures displayed to guarantee ideal serving temperatures.

#discovery of new wines

patented **model**

Quality

Flavours remain intact thanks to a new air vacuum system that allows the properties of open bottles to be retained for up to 10 days.

Extremely user-friendly: handling bottles is quick and easy and the appliance is very easy to use: ergonomic design, no maintenance or consumables.

#R&D
#exclusive

By the glass

The only product to serve wine by the glass from the bottle.

Wine Bar contributes to high-quality service by allowing you to serve wine at the table, in the tradition of top sommeliers.
